
HIGHLIGHTS OF SKILLS

- Develop thoughtful product solutions with strong regard for the design process
- Communicate and share ideas through conceptual sketching and presentations
- Design iteratively using a strong hands-on approach, complemented with digital mediums
- Prototype to thoroughly test form and function, leading to a more complete product
- Proficient in CAD software packages to create, modify, simulate and animate products for prototyping and final visualization

EDUCATION

2009 - 2014 **Carleton University** **Ottawa, ON**
BID Bachelor of Industrial Design

COMPUTER SKILLS

SolidWorks AutoCad
Adobe Illustrator Basic Programming
Adobe Photoshop Basic Rhino
3D Studio Max 3D Animation
Keyshot

INTERESTS

Carpentry
Sports
DIY projects
Computer Technology and Visualization

WORK EXPERIENCE

2014 - Present **Freelance Designer** **Toronto/Ottawa, ON**
Freelancer Designer

- Work with clients on a range of design needs including conceptual product development, technical drawings, visual branding, 3D visualization and models

2014 - Present **Bukhari Design Inc** **Toronto/Ottawa, ON**
Contract Interior Design Technician

- Work closely with principle designer to develop interior spaces for commercial establishments through the use of architectural floorplans and 3D conceptual renderings
- Develop final photo-real renderings for the use of client and marketing
- Create technical design plans in the form of floor/ceiling plans and detail drawings of elements
- Record measurements of commercial spaces for use in floorplan development

2014 **PrototypeD Team Inc** **Ottawa, ON**
Contract Industrial Designer

- Perform market research for current product landscapes while identifying markets for product development
- Create accurate 3D CAD models of products and apply virtual structural analysis tests to check feasibility and safety
- Collaborate with clients through meetings and email to discuss project details and progress
- Use Arduino and electronic components to form functioning prototypes

2013 **Fugitive Glue Design** **Toronto, ON**
Junior Designer Intern

- Aid development throughout design phases including ideation, research, concept development, prototyping and manufacturing
- Present and discuss concept progress at regular internal meetings for product development
- Construct installation pieces at onsite locations
